

# SPORT & GLOBAL EVENTS

## Unique expertise to meet your needs and cover your risks

*The world of sport is driven by passion and the issues around insurance and risk management need to be taken seriously and handled with care. The specialist sports team at SIACI SAINT HONORE is on hand to assist.*

While an insurance policy may provide a financial solution which protects the insured, it is your duty to do everything in your power to ensure that nothing goes wrong! This simple truth makes us think that, rather than being sorry... it's better to be safe. This is where you play an essential role. Our aim is

to help you analyze your own risks and advise you on the practical arrangements you require from the organizers of your events. Passing on the organization of an event to someone else doesn't mean you don't take an interest but, quite the opposite, that you offer them advice or even

instructions on their insurance and risk management program. Transferring the risks to the insurer is one solution but eliminating the risks beforehand is certainly the best way of ensuring greater peace of mind !
